Multiple recent policies, inconsistent addresses, duplicate claims, or altered invoices require investigation.

Multiple recent policies, inconsistent addresses, duplicate claims, or altered invoices require investigation.

Multiple recent policies, inconsistent addresses, duplicate claims, or altered invoices require investigation.

Multiple recent policies, inconsistent addresses, duplicate claims, or altered invoices require investigation.

9. Inspection Rules

Vehicles above ■20 lakh and flood-damaged vehicles require physical inspection.

Vehicles above ■20 lakh and flood-damaged vehicles require physical inspection.

Vehicles above ■20 lakh and flood-damaged vehicles require physical inspection.

Vehicles above ■20 lakh and flood-damaged vehicles require physical inspection.

Vehicles above ■20 lakh and flood-damaged vehicles require physical inspection.

10. Theft Claims

Require FIR, ownership proof, and key submission.

Require FIR, ownership proof, and key submission.

Require FIR, ownership proof, and key submission.

Require FIR, ownership proof, and key submission.

Require FIR, ownership proof, and key submission.

11. Fire Claims

Require fire authority report when applicable.

Require fire authority report when applicable.

Require fire authority report when applicable.

Require fire authority report when applicable.

Require fire authority report when applicable.

12. Flood Claims

Engine submersion requires senior adjuster inspection.

Engine submersion requires senior adjuster inspection.

Engine submersion requires senior adjuster inspection.

Engine submersion requires senior adjuster inspection.

Engine submersion requires senior adjuster inspection.

13. Medical Coverage

Hospital records are mandatory for injury claims.

Hospital records are mandatory for injury claims.

Hospital records are mandatory for injury claims.

Hospital records are mandatory for injury claims.

Hospital records are mandatory for injury claims.

14. Exclusions

Racing, intentional damage, illegal activity, and driving without a valid licence are excluded.

Racing, intentional damage, illegal activity, and driving without a valid licence are excluded.

Racing, intentional damage, illegal activity, and driving without a valid licence are excluded.

Racing, intentional damage, illegal activity, and driving without a valid licence are excluded.

Racing, intentional damage, illegal activity, and driving without a valid licence are excluded.

15. Decision Matrix

High Risk -> Approved with Loading. Medium Risk -> Standard Premium. Low Risk -> Preferred Premium.

High Risk -> Approved with Loading. Medium Risk -> Standard Premium. Low Risk -> Preferred Premium.

High Risk -> Approved with Loading. Medium Risk -> Standard Premium. Low Risk -> Preferred Premium.

High Risk -> Approved with Loading. Medium Risk -> Standard Premium. Low Risk -> Preferred Premium.

High Risk -> Approved with Loading. Medium Risk -> Standard Premium. Low Risk -> Preferred Premium.

16. Documentation

Driving licence, RC, invoice, address proof, and previous insurance records are mandatory.

Driving licence, RC, invoice, address proof, and previous insurance records are mandatory.

Driving licence, RC, invoice, address proof, and previous insurance records are mandatory.

Driving licence, RC, invoice, address proof, and previous insurance records are mandatory.

Driving licence, RC, invoice, address proof, and previous insurance records are mandatory.

17. Renewal

No-claim bonus applies after claim-free policy periods.

No-claim bonus applies after claim-free policy periods.

No-claim bonus applies after claim-free policy periods.

No-claim bonus applies after claim-free policy periods.

No-claim bonus applies after claim-free policy periods.

18. Escalation

Claims exceeding ■10 lakh require manager approval.

Claims exceeding ■10 lakh require manager approval.

Claims exceeding ■10 lakh require manager approval.

Claims exceeding ■10 lakh require manager approval.

Claims exceeding ■10 lakh require manager approval.

19. Customer Communication

Notify customers within 48 hours if documents are missing.

Notify customers within 48 hours if documents are missing.

Notify customers within 48 hours if documents are missing.

Notify customers within 48 hours if documents are missing.

Notify customers within 48 hours if documents are missing.

20. Glossary

Defines High Risk, Premium Loading, Deductible, Endorsement, Total Loss.

Defines High Risk, Premium Loading, Deductible, Endorsement, Total Loss.

Defines High Risk, Premium Loading, Deductible, Endorsement, Total Loss.

Defines High Risk, Premium Loading, Deductible, Endorsement, Total Loss.

Defines High Risk, Premium Loading, Deductible, Endorsement, Total Loss.

Appendix 1

Illustrative underwriting scenarios, policy interpretations, FAQs, and example customer applications for testing chunking, embeddings, retrieval, and LLM reasoning.

Illustrative underwriting scenarios, policy interpretations, FAQs, and example customer applications for testing chunking, embeddings, retrieval, and LLM reasoning.

Illustrative underwriting scenarios, policy interpretations, FAQs, and example customer applications for testing chunking, embeddings, retrieval, and LLM reasoning.

Illustrative underwriting scenarios, policy interpretations, FAQs, and example customer applications for testing chunking, embeddings, retrieval, and LLM reasoning.

Illustrative underwriting scenarios, policy interpretations, FAQs, and example customer applications for testing chunking, embeddings, retrieval, and LLM reasoning.

Appendix 2

Illustrative underwriting scenarios, policy interpretations, FAQs, and example customer applications for testing chunking, embeddings, retrieval, and LLM reasoning.

Illustrative underwriting scenarios, policy interpretations, FAQs, and example customer applications for testing chunking, embeddings, retrieval, and LLM reasoning.

Illustrative underwriting scenarios, policy interpretations, FAQs, and example customer applications for testing chunking, embeddings, retrieval, and LLM reasoning.

Illustrative underwriting scenarios, policy interpretations, FAQs, and example customer applications for testing chunking, embeddings, retrieval, and LLM reasoning.

Illustrative underwriting scenarios, policy interpretations, FAQs, and example customer applications for testing chunking, embeddings, retrieval, and LLM reasoning.

Appendix 3

Illustrative underwriting scenarios, policy interpretations, FAQs, and example customer applications for testing chunking, embeddings, retrieval, and LLM reasoning.

Illustrative underwriting scenarios, policy interpretations, FAQs, and example customer applications for testing chunking, embeddings, retrieval, and LLM reasoning.

Illustrative underwriting scenarios, policy interpretations, FAQs, and example customer applications for testing chunking, embeddings, retrieval, and LLM reasoning.

Illustrative underwriting scenarios, policy interpretations, FAQs, and example customer applications for testing chunking, embeddings, retrieval, and LLM reasoning.

Illustrative underwriting scenarios, policy interpretations, FAQs, and example customer applications for testing chunking, embeddings, retrieval, and LLM reasoning.

Appendix 4

Illustrative underwriting scenarios, policy interpretations, FAQs, and example customer applications for testing chunking, embeddings, retrieval, and LLM reasoning.

Illustrative underwriting scenarios, policy interpretations, FAQs, and example customer applications for testing chunking, embeddings, retrieval, and LLM reasoning.

Illustrative underwriting scenarios, policy interpretations, FAQs, and example customer applications for testing chunking, embeddings, retrieval, and LLM reasoning.

Illustrative underwriting scenarios, policy interpretations, FAQs, and example customer applications for testing chunking, embeddings, retrieval, and LLM reasoning.

Illustrative underwriting scenarios, policy interpretations, FAQs, and example customer applications for testing chunking, embeddings, retrieval, and LLM reasoning.

Appendix 5

Illustrative underwriting scenarios, policy interpretations, FAQs, and example customer applications for testing chunking, embeddings, retrieval, and LLM reasoning.

Illustrative underwriting scenarios, policy interpretations, FAQs, and example customer applications for testing chunking, embeddings, retrieval, and LLM reasoning.

Illustrative underwriting scenarios, policy interpretations, FAQs, and example customer applications for testing chunking, embeddings, retrieval, and LLM reasoning.

Illustrative underwriting scenarios, policy interpretations, FAQs, and example customer applications for testing chunking, embeddings, retrieval, and LLM reasoning.

Illustrative underwriting scenarios, policy interpretations, FAQs, and example customer applications for testing chunking, embeddings, retrieval, and LLM reasoning.

Appendix 6

Illustrative underwriting scenarios, policy interpretations, FAQs, and example customer applications for testing chunking, embeddings, retrieval, and LLM reasoning.

Illustrative underwriting scenarios, policy interpretations, FAQs, and example customer applications for testing chunking, embeddings, retrieval, and LLM reasoning.

Illustrative underwriting scenarios, policy interpretations, FAQs, and example customer applications for testing chunking, embeddings, retrieval, and LLM reasoning.

Illustrative underwriting scenarios, policy interpretations, FAQs, and example customer applications for testing chunking, embeddings, retrieval, and LLM reasoning.

Illustrative underwriting scenarios, policy interpretations, FAQs, and example customer applications for testing chunking, embeddings, retrieval, and LLM reasoning.

Appendix 7

Illustrative underwriting scenarios, policy interpretations, FAQs, and example customer applications for testing chunking, embeddings, retrieval, and LLM reasoning.

Illustrative underwriting scenarios, policy interpretations, FAQs, and example customer applications for testing chunking, embeddings, retrieval, and LLM reasoning.

Illustrative underwriting scenarios, policy interpretations, FAQs, and example customer applications for testing chunking, embeddings, retrieval, and LLM reasoning.

Illustrative underwriting scenarios, policy interpretations, FAQs, and example customer applications for testing chunking, embeddings, retrieval, and LLM reasoning.

Illustrative underwriting scenarios, policy interpretations, FAQs, and example customer applications for testing chunking, embeddings, retrieval, and LLM reasoning.

Appendix 8

Illustrative underwriting scenarios, policy interpretations, FAQs, and example customer applications for testing chunking, embeddings, retrieval, and LLM reasoning.

Illustrative underwriting scenarios, policy interpretations, FAQs, and example customer applications for testing chunking, embeddings, retrieval, and LLM reasoning.

Illustrative underwriting scenarios, policy interpretations, FAQs, and example customer applications for testing chunking, embeddings, retrieval, and LLM reasoning.

Illustrative underwriting scenarios, policy interpretations, FAQs, and example customer applications for testing chunking, embeddings, retrieval, and LLM reasoning.

Illustrative underwriting scenarios, policy interpretations, FAQs, and example customer applications for testing chunking, embeddings, retrieval, and LLM reasoning.

Appendix 9

Illustrative underwriting scenarios, policy interpretations, FAQs, and example customer applications for testing chunking, embeddings, retrieval, and LLM reasoning.

Illustrative underwriting scenarios, policy interpretations, FAQs, and example customer applications for testing chunking, embeddings, retrieval, and LLM reasoning.

Illustrative underwriting scenarios, policy interpretations, FAQs, and example customer applications for testing chunking, embeddings, retrieval, and LLM reasoning.

Illustrative underwriting scenarios, policy interpretations, FAQs, and example customer applications for testing chunking, embeddings, retrieval, and LLM reasoning.

Illustrative underwriting scenarios, policy interpretations, FAQs, and example customer applications for testing chunking, embeddings, retrieval, and LLM reasoning.

Appendix 10

Illustrative underwriting scenarios, policy interpretations, FAQs, and example customer applications for testing chunking, embeddings, retrieval, and LLM reasoning.

Illustrative underwriting scenarios, policy interpretations, FAQs, and example customer applications for testing chunking, embeddings, retrieval, and LLM reasoning.

Illustrative underwriting scenarios, policy interpretations, FAQs, and example customer applications for testing chunking, embeddings, retrieval, and LLM reasoning.

Illustrative underwriting scenarios, policy interpretations, FAQs, and example customer applications for testing chunking, embeddings, retrieval, and LLM reasoning.

Illustrative underwriting scenarios, policy interpretations, FAQs, and example customer applications for testing chunking, embeddings, retrieval, and LLM reasoning.
